

Magento 2 Custom Shipping Method

Dss

1. How Does It Work?

1.1 Module configuration:

Navigate to Store ⇒ Configuration ⇒ Sales ⇒ Delivery Methods ⇒ Custom Shipping and find configuration.

1.2 Custom Shipping:

Custom Shipping

The screenshot shows the 'Custom Shipping' configuration page in Magento 2. The page has a light gray background and a white form area. The form contains several fields with labels and sub-labels in brackets. The 'Enabled' field is a dropdown menu set to 'Yes'. The 'Version' field shows '0.0.1'. The 'Title' field is a text input with 'Custom Shipping'. The 'Method Name' field is a text input with 'Fix Rate...'. The 'Shipping Cost' field is a text input with '10'. The 'Displayed Error Message' field is a text area with the message 'This shipping method is not available. To use this shipping method, please contact us.' The 'Ship to Applicable Countries' field is a dropdown menu set to 'All Allowed Countries'. The 'Ship to Specific Countries' field is a multi-select list with a scrollable area containing a list of countries: Austria, Azerbaijan, Bahamas, Bahrain, Bangladesh, Barbados, Belarus, Belgium, Belize, Benin, and Bermuda. The 'Show Method if Not Applicable' field is a dropdown menu set to 'No'. The 'Sort Order' field is a text input.
